SALT LAKE

AND STATE NEWS

BOY SMOTHERED UNDER A WAGON

Salt Lake, May 22.—James Henry Kirk, 4-year-old son of Mr. and Mrs. J. H. Kirk, 62 Chicago court, was smothered to death shortly after 5 o'clock yesterday afternoon, a few rods from his home, by a wagon used for hauling debris from the Walker bank building to a vacant lot in Chicago avenue.

The little boy and an older playmate, Earl Bain, living in the same street, were playing in a vacant lot. The lads have been in the habit of searching through the debris hauled from the Walker building for pipe fittings which have found their way into the waste. While they were searching a wagonload of waste was brought to the dumping ground by E. A. Burke.

Burke paid little attention to the children and started unloading. It is believed the little Kirk boy saw a metal fitting and climbed under the wagon to get it. Ten or fifteen minutes later the driver, pulling ahead to allow the closing of the end gate, found the boy face downward in the dirt.

Immediately a call was sent for Dr. W. F. Beer. The doctor arrived a few minutes after the boy had been taken from under the wagon and pronounced his death to be due to smothering.

Dr. Beer notified the police and the summons was answered by Sergeant Thomas Simpson and Detectives Bert Seager, George Cleveland and Maroon Gillespie. Drs. George W. Middleton and C. L. Sanberg also answered the second summons.

From the position of the boy's body when found by the driver it is thought the rear wheel struck him with sufficient force to force his face into the sawdust and shavings with just enough pressure to smother him and prevent an outcry. Later, when the wagon was driven ahead to allow closing the end gate the wheel passed completely over the boy's neck, breaking the jawbone. Dr. Beer says death took place before the jaw was broken.

Burke, the driver, resides at 10 McDonald's court. When he found the dead boy under his wagon he was almost paralyzed with grief. His voice failed him and he was unable to call for assistance. Others nearby noticed him holding the lad in his arms, sobbing. They ran to him and helped carry the body into the home of Mrs. John Catrell, 36 Chicago avenue.

Neighbors notified the mother. She hastened to the Catrell home and found the son she had let go out to play a few minutes before, dead. Mrs. Kirk is the mother of eight children, ranging in age from two weeks to sixteen years. She is in a delicate condition and serious concern is felt for her health because of the added shock.

Mr. Kirk is a sheepman and is now near Henry, Idaho. Word was sent to him soon after the accident occurred yesterday, but as yet efforts to find him have been futile.

In the court where the family lives the sudden death of the little boy has cast a cloud of gloom over the entire neighborhood. The boy was known to everyone in the neighborhood. He was bright and sunny and everyone stopped to speak to him.

HODGES IS ELECTED

MAYOR OF BOISE.

Boise, Ida., May 22.—Arthur Hodges, formerly a prominent business man of Oregon, has the honor of being elected the first mayor of Boise under the commission form of government. As the result of the election held here today, returns from which were complete tonight, he swept the city, carrying every precinct over his opponent, Marlon S. Parker, and will be inaugurated mayor with a clear majority of 1,400.

Hodges has been a resident of Idaho and Boise for six years. He was for ten years clerk of Crook county, Oregon, and prior to coming to Idaho was engaged in the sheep and mercantile business at Pineville, Ore.

The four commissioners elected are Thomas B. Woodcock, Edwin Harrington, Thomas Finegan and Albert V. Eichelberg.

Councilmen McCauley and Alkman of the old regime were snowed under. Hodges' sweeping victory was due to the high standing he has in business and social circles in this city. He made an excellent record as secretary of the Idaho Intermountain Fair association and is now engaged in business here. The fact that his opponent, Parker, was supported by members of the I. W. W. and the Socialists had much to do with his defeat. The wearing of miniature American flags by the Hodges workers as a striking contrast to the red flag of the I. W. W. was one of the features of the campaign, the most exciting in the history of the city.

AGED MAN STRUCK BY A MOTORCYCLE.

Salt Lake, May 22.—William Roby, aged 60 years, was knocked down and painfully injured by a cyclist near Seventh South and Fifth West streets yesterday morning. The man on the bicycle rode away leaving Roby lying prostrate on the sidewalk. Witnesses of the accident called the police and the aged man was attended by Dr. H. B. Sprague at the emergency hospital. The police are searching for the cyclist.

BANK OFFICIAL IS SENTENCED IN IDAHO

Boise, Ida., May 22.—Arthur B. Cutts, the convicted defaulting cashier of the Idaho State bank of Halley, Ida., was yesterday sentenced to serve an indeterminate term in the state penitentiary in this city not less than six months nor more than ten years. He is the second officer of this defunct institution who has been tried, found guilty and given a penitentiary sentence. The first one was Leo Cramer, now a convict in the prison. At the trial Cutts maintained that he had no knowledge of the falsity of the report that it was prepared by Leo Cramer and handed to Cutts

for his verification and that Cutts signed these oaths to the report, but did not appear before the notary to swear to the same, and that he had not sworn to the truthfulness of the report.

From the mass of evidence introduced by the state, however, the jury believed that Cutts did have knowledge of the falsity of the report and that the same had been by him made, and after being out but a very short time a verdict of guilty was returned. Upon the pronouncement of judgment an appeal was promptly taken and bond furnished, and Judge Walters granted a stay of judgment. During the time which will elapse until the hearing upon the appeal Cutts will not be incarcerated in the penitentiary.

The charge against Hugh Cramer and Dr. J. J. Plumer has been dismissed by the county attorney acting under the interpretation of the banking law recently announced by the supreme court in the case of the state versus Paulson.

SUNDAY SCHOOL MAY DAY.

Brigham City, May 22.—The Sunday schools of Box Elder stake will hold their annual May day and track meet at the city park in this city next Saturday. Hundreds of children will come to Brigham to indulge in the celebration, a program having been arranged as follows:

10 a. m.—Meet at Central school and form in parade, each ward of the stake to be represented.

11 a. m.—Parade will move north, headed by Military band, to Main and Forest streets, and will then go west to the city park.

From 12 to 1 p. m. will be lunch hour and during this hour a program will be rendered by the Military band.

1 p. m.—Building May pole by Sunday school children in city park.

1:30 p. m.—Track races and athletic sports for prizes.

3:30 p. m.—Baseball, Mantua and Honeyville. The winning team will be declared the champion team of the M. I. A. League and will go to Salt Lake in June to the M. I. A. meet.

Many other features are announced for the day for the entertainment of the visitors.

WIDOW OF SLAIN MAN VICTIM OF HYSTERIA.

Salt Lake City, May 22.—Miss Annie Lubb of 2700 Arapahoe street, Denver, sister of Mrs. Thomas McGillis, whose husband was killed in this city April 20 last by Alfred Sorenson, says in a letter to Mrs. C. McGillis of this city that the widow is inconsolable and is yet so affected by the tragedy that she is subject to hysteria and frequently suffers fainting spells.

Mrs. McGillis accompanied her husband's body to Denver for burial a few days after his death and has remained at her family home in that city. Miss Lubb said further that she and her mother were still deeply grieved over the death and that the mother, who had been particularly fond of her son-in-law, had been made quite ill by the tragedy. She had expected, according to Miss Lubb, to sell her interests in Denver and join her daughter and her husband in Salt Lake City.

UTAH TO GO AFTER NEVADA BUSINESS.

Salt Lake, May 22.—The Manufacturers' association of Utah is preparing to participate in the celebration to take place June 9 at St. Thomas, Nev., marking the completion of the new line of the Salt Lake Route from Moapa to St. Thomas.

Secretary D. F. Collett yesterday received official word announcing a special round-trip rate of \$18.75 out of this city. He declared that California jobbers, especially from Los Angeles, were preparing to join in the celebration, and that Utah would be properly and adequately represented. It is the intention of the Utah association to go after the biggest part of the business that will be made possible through the opening of the new line. Tickets at the announced rate will be sold June 6 and 7, and will be good ten days after sale. Indications are that a large body of business men from Salt Lake and Utah will make the initial trip over the new road.

KIMBALL & RICHARDS BUY NEVADA RANCH.

Salt Lake, May 22.—Kimball & Richards, real estate dealers of this city, have purchased the big Godchaux ranch at Winnemucca, Nev.

Yesterday, three carloads of horses were received here from the big ranch and these will be sold to local horsemen. C. H. Piper has managed the property for the past twenty-three years, and he will be continued as Nevada representative of the Kimball & Richards company.

Under present plans the purchasers will hold the tract for improvement and for future development as a possible townsite.

There's nothing so good for a sore throat as Dr. Thomas' Electric Oil. Cures it in a few hours. Relieves any pain in any part.

Why did Joseph rise steadily to the top in spite of "bad luck?" Gen 37, 29, 40 to 42.

Shares sold, 6000.

Selling value, \$861.25.

DIVIDEND FROM RAY EARLY IN NEW YEAR.

One closely identified with the Ray Consolidated company on his return east is quoted to the effect that the management at the property was very enthusiastic over the manner in which operations are being conducted, for they are making better costs and a better average extraction of values than it was estimated at first could be done. He explains the heavy market action of the stock by the fact that there were 3200 stockholders of the Ray Central company who received one share of the Ray Consolidated for each eight shares of their Central, while the underwriters drew down 25,000 shares of the Consolidated stock for having attended to the bonds. The absorption of this stock had its influence upon the market action of the issue.

It is estimated that by fall the Ray Consolidated company will be earning to exceed \$3,000,000 per annum, and with no more than five of its eight ultimate concentrating sections in commission. The company is expected to have about \$2,000,000 tucked away in bank by the close of 1912 which is believed to indicate that the early months of 1913 will find the officers in a mood to begin dividends.

Thompson, Towle & Co. says: "Ray has been making an excellent record, with costs steadily decreasing and production and earnings increasing. The net profit for the first quarter, which amounted to \$350,000, will in reality be more, owing to the increase in copper metal during transit. The earnings for March, which have been placed at \$140,000, should be in the neighborhood of \$180,000, while the figures for April of \$150,000 would be correspondingly increased."

There has never been a time in the development of the Ray property when the management has felt as optimistic regarding the future as they do at the present time. The concentrator is now giving entire satisfaction and the outlook for a low cost is better than ever before. The management is confident that by midsummer, with but five units of the plant in commission, the cost of production will be reduced to 8 1-2 cents per pound and that at least a 8-cent cost will be possible when the plant has been brought up to capacity.

HIGH GRADE HAS MANY GOOD MINES

At your request I shall try to give you what I know of the High Grade mining district, situated in the northeast corner of California, Modoc county, near the California-Oregon state line on the N. C. O. railroad, says C. A. Howard in the Los Angeles Mining Review.

New Pine Creek is the nearest station on the railroad to the mines, it being just eight miles to the Sunshine, Big Four and Modoc mines. There is a good wagon road all the way to these mines. A team can pull from 1200 to 1500 pounds when the road is dry.

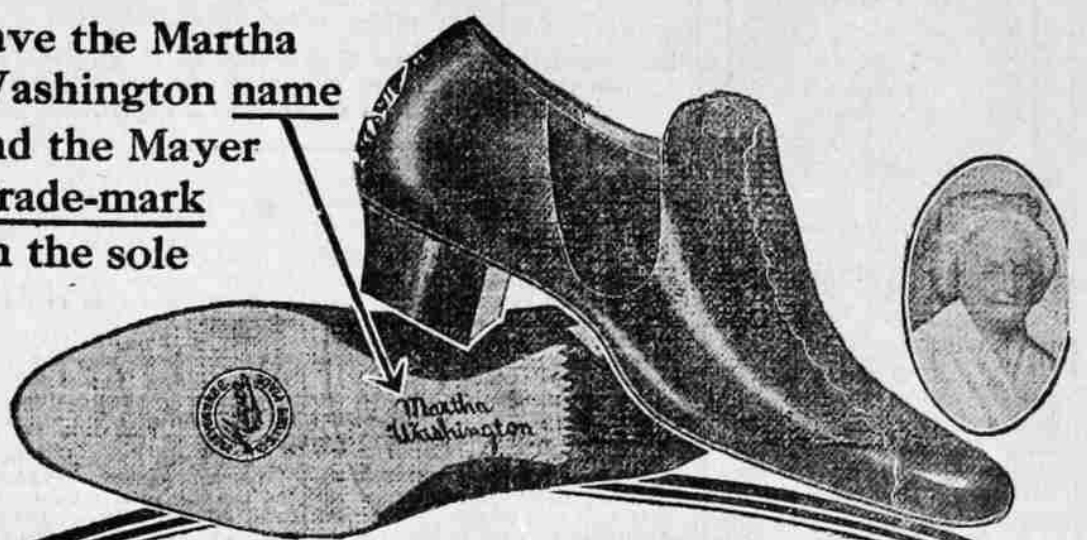

The Sunshine mine is, I believe, the richest property in the district. There is about 260 feet of work done on this property. There is a tunnel 260 feet with seventy five feet of depth, thirty feet upraise, all in high-grade, free milling ore that will average \$100 per ton in gold for the full length of the tunnel. The vein is from six to ten inches wide. The strike of the vein being easterly and westerly. About 300 feet west from the tunnel are two shafts, one twenty and the other forty feet deep, all in very high grade ore. The twenty-foot shaft will average \$1,000 per ton, while the forty-foot shaft will average \$150. The formations here are a rhyolite, andesite and porphyry. There is also a north and south vein on this property carrying high values but has not been opened.

The Modoc Mining company three-fourths of a mile north of the Sunshine, has a shaft down sixty feet and are drifting on their lead, a two-foot vein that averages \$39 in gold and silver. The strike of this vein is in a northerly and southerly direction.

The Mountain Sheep, one mile south of the Sunshine, has a two-foot vein that averages \$40 and a grab sample taken by me from the dump gave \$118.

Genuine Comfort Shoes

have the Martha Washington name and the Mayer Trade-mark on the sole

If you are not cautious you are liable to be imposed upon when asking for Martha Washington Comfort Shoes. Imitations lacking their comfort, style and wearing qualities are frequently offered in their place. The safe way is to be sure and look for the name "Martha Washington" and Mayer trade mark on the sole.

No buttons—no laces

Mayer Martha Washington Comfort Shoes are made without buttons or laces. They will slip on or off at will.

The elastic at each side yields with every movement of the foot and produces a smooth fit over the instep and around the ankle. In all sizes and three heights.

Experience real foot comfort and enjoy the rest and relaxation of genuine foot ease, by wearing Mayer Martha Washington Comfort Shoes. Tender, aching feet that hurt, burn, itch and perspire, that tire easily, get quick, pleasant relief from these wonderful comfort-giving, stylish-looking, trim-fitting shoes.

Your dealer has the genuine or can get them for you. Refuse substitutes as the genuine Mayer Martha Washington Comfort Shoes are obtainable. If you cannot find a dealer write to us.

F. Mayer Boot & Shoe Co. Milwaukee

The Above Martha Washington Slippers are for sale by **HORROCKS BROS.** 2427 Wash. Ave.
